OBJECTIVE

As a passionate Information Technology student pursuing a Bachelor of Engineering degree, I aspire to leverage my technical acumen and innovative mindset to contribute meaningfully to the ever-evolving field of technology.

EDUCATION

Bachelor of Engineering, SPPU University   2020 - 2024
Nutan Maharashtra Institute of Engineering and Technology.   8.75

Secondary School Certificate   2017 - 2018
Sainiki School, Beed   86.00

Higher Secondary School Certificate   2019 - 2020
Dada Patil Mahavidyalaya, Karjat

SKILLS

Technical Skills	Core Java, OOP, DSA, HTML, CSS, GitHub
Soft Skills	Problem Solving, Team Work, Time Managment
Database	Microsoft SQL Server, SQL, MySQL
Software	Visual Studio Code, Eclipse, IntelliJ IDEA, MySQL Workbench

EXPERIENCE

Web Devlopment Intern⬀   Mar 2023 - April 2023
Oasis Infobyte   *Pune, India*

- Achieved growth for web devlopment using HTML, CSS, skills.
- Collaborated on real projects, enhancing coding and debugging skills. Assisted in front-end and back-end tasks, optimizing website functionality.
- Learned from experienced professionals in fast-paced team environment. Acquired practical knowledge of HTML, CSS, VS code, git.

PROJECTS

AirLine Resevation System   Java, OOP, Data Structure and Algorithm
A Java-based airline reservation system that uses Object-Oriented Programming. The system can manage customers, admins, flight booking and cancellation. The reservation system demonstrates the role of both the admin and the passenger. The admin sets up and manages the reservation system, while passengers use it to make reservations.

Online Code Editor⬀   HTML, CSS, GitHub
I undertook the development of an Online HTML, CSS, and JavaScript Code Editor as a personal project to showcase my web development skills and passion for coding. This project aimed to provide a user-friendly platform for developers and learners to practice and experiment with front-end web technologies in a convenient and collaborative online environment.
